

Our community dashboard exists to focus attention and spur action on our most pressing needs. It will show the trends for our results. Data is shown for the area of the Muscatine Community School District and City of Muscatine. This is our baseline data that we are focusing on impacting. Achieving systemic change for children and families in our region will require a long-term commitment from all of us.

Big Picture Goals:

-  Increase the percentage of Muscatine students who graduate from High School.
-  Increase the percentage of post-secondary completion.
-  Increase training opportunities for adults to address unemployment and underemployment, to enable a workforce capable to sustain and grow Muscatine's economy.
